-- January 1, 2014 --

The whole team spent the morning packing sleds. We manage to load all necessary camp, food, fuel, and science items on 9 sleds. The journey to our new camp (WhIP1 = Whillans Initiation Point 1) took 3-4 hours even though it is just some 25 miles away. By midnight we finished building all the key parts of the camp (kitchen tent, toilet tent, sleep tents).
